Washington, D.C. 20460

Re: Joint Opposition to Petition from Growth Energy to Increase the Allowable Ethanol Content of Gasoline to 15 Volume Percent

Dear Administrator Jackson:

We, the undersigned diverse group of environmental groups, business associations and public interest organizations, write today to urge you to deny Growth Energy's petition under Section 211(f)(4) of the Clean Air Act to authorize the introduction into commerce of so-called "mid-level ethanol blends." Any decision to introduce a new fuel formulation must only be undertaken after independent, rigorous and verifiable testing has been completed and concludes that such mid-level ethanol blends (whether E12, E15 or E20) will not pose a risk to all gasoline-powered engines, to public health, to the environment and to consumers.

We collectively urge you to deny Growth Energy's petition and stand ready to work with you on this important issue.

Sincerely,

American Fly Fishing Trade Association
American Frozen Food Institute
American Meat Institute
American Petroleum Institute
